DETAILED ACTION

Specification

1. Applicant is reminded of the proper content of an abstract of the disclosure. The abstract should not refer to purported merits or speculative applications of the invention and should not compare the invention with the prior art. The abstract is objected to because the sentence "The user can watch the video film directly and instantaneously." on line 8 states the speculative merits of the invention.
2. The abstract of the disclosure is objected to because of the following minor informalities: the use of "user's" on line 6 is grammatically incorrect. The correct word to use would be -- users--. Correction is required. See MPEP § 608.01(b).
3. The disclosure is objected to because of the following informalities: the use of "an user" throughout the disclosure is grammatically incorrect. The correct use of the phrase is "a user". Appropriate correction is required.

Claim Objections

4. Claim 1 is objected to because of the following informalities: the use of "an user" on line 6 is grammatically incorrect. The correct usage would be "a user". Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Budge et al. U.S. Patent 6,014,689.

Referring to claim 1, Budge et al. teach a method of video displaying for E-mails used in video E-mail (column 2, lines 28-34). Specifically, Budge et al. teach providing a video film (message files) (column 1, lines 38-40), preparing an E-mail and sending the E-mail to a user (column 1, lines 34-41), receiving the email by the user (column 1, lines 42-43), determining the presence of a video player software in the user's computer, wherein, if the software is not available, automatically downloading the video player software attached to the file (column 2,

lines 28-34 and column 4, line 67 - column 5, lines 1-3) and finally, broadcasting the film within the E-mail format (column 2, lines 2-5).

6. The prior art made of record on form PTO-892 and not relied upon is considered pertinent to applicant's disclosure. Applicant is required under 37 C.F.R. § 1.111(c) to consider these references fully when responding to this action. The documents cited therein teach electronic books with similar mechanisms for note taking and retrieval.
